Police Dinner Celebrants Merry Mad, to Banish His Spectre.

MUT GERRY'S SPEECH MUST HAVE MADE THEM THINK.

MS BAPS AT THE COMMISSIONERS.

wae post-prandial part of the thir-Apperintendent, Inspectors and Captains of the New York police to their friends, Delmonico's, last night, was a euloby Elbridge T. Gerry, the President of the Society for the Prevention of Crueity to Children. What he had to say was against the division of responsibility by the present system of commissions in municipal government, but his words did not grate very harshly on the ears of the many Commissioners who sat around him, for the pason that there were two sentences of praise for every one of

The speakers generally applied the golden rule of silence to those questions oncerning the Police Department that are now uppermost in the public mind Dr. Parkhurst, who did not get an invi-tation to the feast, was only spoken of as a glittering generality, and to the work which he has been doing, with whatever public sentiment it has attracted, was given no serious attention.

was a surprise and a disappoint ment to the few of the nearly three hundred people who sat at the tables who had just an idea that the affair would be something out of the ordinary in the matter of speechmaking. Conidering the present condition of affairs in police circles, there certainly was direction. Such anticipation might have been realized had Supt. Byrnes invited Dr. Parkhurst to the dinner, and the extension of an invitation to him was seriously contemplated, but it was not

extension of an invitation to him was seriously contemplated, but it was not sent.

An invitation was sent to Richard Croker, and he was to have been seated at the upper table if he had accepted it, but he did not. President Cleveland, Gov. Flower and a few other notables also were obliged to decline.

The dinner itself was a merry affair, for there were many merry men there. As usual, Supt. Byrnes, Inspectors Williams, Conlin. McAvoy and McLaughlin and the hirty-seven Police Captains were in uniform and received the guests as they arrived.

Among those who occupied seats in the banquet hall, which was decorated with appropriate flags, were Mayor Gilroy, who presided; Elbridge T. Gerry, Recorder Smyth, Police Commissioners McClave, Martin, Sheehan and MacLean, District-Attorney Fellows, Frank R. Lawrence, ex-Mayor Grant, John W. Keller, J. Edward Simmons, Corporation Counsel Clark, ex-Mayor Franklin Edward Counsel Clark, ex-Mayor Franklin Edward Clark, ex-Mayor Franklin Edward Counsel Counse

faction that is its natural result, it is meither the part of wisdom nor of policy to hold the police up to ridicule or contempt before the public."

Then Commodore Gerry was introduced to respond to the toast, "The City of New York." After eulogizing the Police Department and the city generally, he said:

EKULSKY AND HORN ARE WORRIED.

TEKULSKY AND HORN ARE WORRIED.**

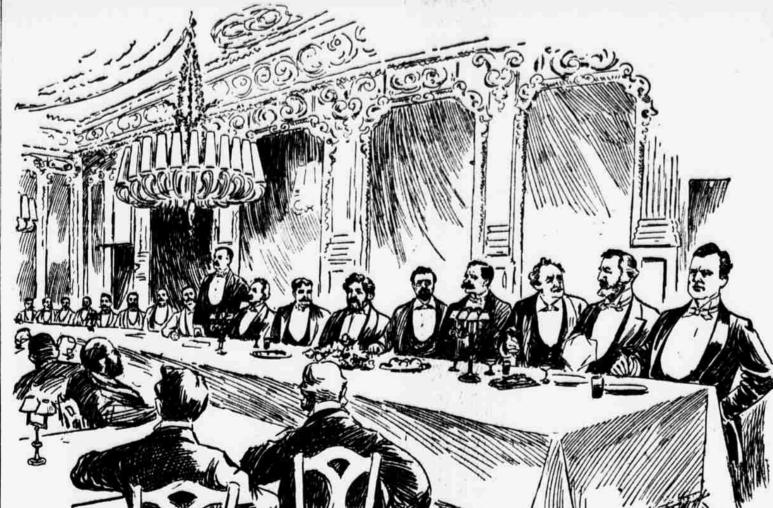

**Bome Big Fish May Be in the Same Not wards, but proved that it was a new discovery to the medical profession.

Dr. Moor is twenty-eight years old.

Recorder Smyth spoke for "The Judiciary," His speech apart from eulogy ary," His speech apart from eulogy of the police and of the judiciary, was grely reminiscent. John W. Keller poke for "The Press." Without menolning Dr. Parkinst's name he concent of the press. "Without menolning Dr. Parkinst's name he concerned his methods. Frank R. Lawence responded to "Our Guestis." These ence responded to "Our Guestis." These peeches were all in the main made up I praise for the Police Department. The peechmaking ended with a characteristic torrent of praise for the police and for the present city government by District-tiorney Fellows.

LARGEST FREIGHTER AFLOAT.

The New White Star Steamship Cevic Due in This Port To-Day with a Cargo of Live Stock.

The new White Star steamship Cevic, the largest and most powerful freighter attoat, is due to-day from Liverpool. The Cevic wa designed specially for the freight and cattle trade, and in her construction are combined all the latest and most improved devices for safety and economy. She is 500 feet in length, 60 feet breadth and has a depth of hold of 38 feet. Her registered tonnage is 8,315 gross and 5,335 net, and her holds have a total capacity of 14,089 tons.

She is fitted on deck for 800 head of cattle

A GREAT DISCOVERY IN MEDICINE.

she is fitted on deck for 800 head of cattle and twenty horses, the stalls for the latter being amidships. Her engines are of the triple-expansion type, working twin screws of manganese bronze and are fitted with improvements which have hitherto been confined to passenger ressels. It is expected of the Cevic that she will lower the best time for freight vessels between this port and Liverpool, now mine days and about twelve hours.

On the Cevic is a pack of hounds consigned

Bought the Mount Vernon Water-Works.

The Mount Vernon Water Company has sold out to a syndicate of New York men represented by William Underwood, of No. 40 Wall street.

The price was 8600,000. The new company has given a contract to H. J. Riley of No. 11 watch the effect of permanganants of potash on white of egg, and calculate it watch the effect is produced. It is industry slower—in.00 times slower.

Thus I seriew that the permanganate of thing in the intrinal page, the New York men represented by William Underwood, of No. 40 Wall street. The price was 8600,000. The new company has given a contract to H. J. Riley of No. 11 is industry slower—in.00 times slower. Thus I seriew that the permanganate of potash and white of egg, and calculate its industry slower—in.00 times slower. Thus I seriew that the permanganate of potash and well and the permanganate of potash and the permanganate of potash and well and the permanganate of potash and perm rested on suspicion of being implicated in the murder of Reed, tatt discharged, salled to day has given a contract to H. by the antidote 75,00 times quicker than albumen, and several thousand times quicker than pep.on."

"How did you find this out."

"I experimented upon the white of egg." said Dr. Moor. That is pure albumen. It is converted into pepton by the action of pepsin. Pepton is the chief rival of the permanganate, because pepton is soluble in water and permanganate of potash acts most quickly on soluble substances. You have seen the demonstration which I have just given.
